

MOBKOI

BLACK FRIDAY & CYBER MONDAY 2022

Black Friday and Cyber Monday are key dates for advertisers to promote holiday sales and discounts. These sales are mostly done online, so driving target consumers to the correct and most relevant URLs is important. Timing is key, both in the short build up to create excitement and during the narrow window of opportunity once the events start.

This is also the time of the year when the use of mobile nearly doubles, making Black Friday a MOBILE SHOPPING EVENT.

BY PARTNERING WITH MOBKOI, YOU CAN:

- Cut through an overpopulated marketplace, with polite, high-impact and full-screen ads – offering maximum share of screen and endless innovation opportunities.
- Access guaranteed, contextually relevant media placements at scale.
- Ensure the highest levels of brand safety and performance with granular reporting and full site list transparency.

In 2021, 73% of E-commerce sales were made on mobile devices.
